

Pioneering sashless window design for energy efficiency

Our energy efficient double glazed sashless windows deliver minimal visual interruption but can still be opened to maximise airflow and provide ventilation. With a 7-star energy rating now the minimum requirement for new builds, you need to save energy wherever you can.

Our double glazed sashless windows are perfect for cooler climates, enabling you to keep the cold out and save energy without compromising on style. Along with great energy saving benefits, this glass make up also helps to reduce outside noise.

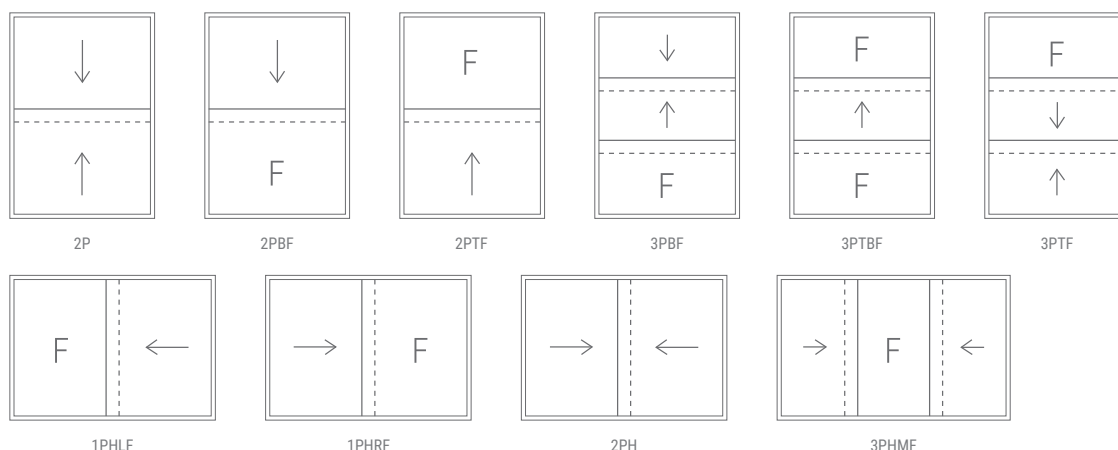

Unlike awning windows which encroach on surrounding spaces, our double glazed sashless windows are the ultimate space saver for courtyards, decks and verandahs. Put your furniture wherever you like and eliminate trip hazards and head knocks for small children. They're also great for internal spaces, like laundries, where you may not have an external door but still need ventilation.

Available in a number of double glazed or thermally broken configurations, there's sure to be one to suit your needs.

THE BENEFITS

- Slash energy bills by improving the insulation of your space – keep your house warm in winter and cool in summer
- Retain a constant comfortable temperature
- Cut unwanted noise so you can enjoy the quiet or be as loud as you like without bothering the neighbours
- Bushfire resistant to BAL 29
- Colour fast and UV resistant
- Sustainable and environmentally friendly
- Durable with low maintenance
- Increases the value of your house
- Less condensation on your windows
- Fly screens can be easily installed
- Available in timber and aluminium frames (aluminium available in any powdercoat or anodised finish)
- 100% Australian owned and manufactured in Melbourne

ABOUT US

With over 40 years' experience in the window industry, Jewel Sashless Windows delivers a wealth of knowledge and a passion for innovation.

In Victoria, we supply our sashless windows with a full installation service. We also offer sashless window kits, which can be easily installed by fabricators, cutting out the middle man and allowing full control of schedules and costs.

Being a small, 100% Australian owned and operated business, we pride ourselves on our quality and service, working with our customers to ensure beautiful, functional results every time.
